To whom it may concern

RE: DISTRIBUTION OF MOLECULAR GENETICS AND CYTOGENETICS REPORTS

Effective February 1, 2020 the Molecular Genetics Laboratory and the Cytogenetics Laboratory will no longer provide internal ordering physicians with paper copies of their reports. All reports will be accessible on the hospital Patient Care System.

Reports to external sites will be sent to the ordering physician via secure fax instead of via Canada Post.

Please feel free to contact the laboratory genetics service chief (Dr. Harriet Feilotter – 613-533-2932 or email: hf4@queensu.ca) if you have any questions or concerns.

Sincerely,

Harriet Feilotter, PhD, FCCMG, FACMG

Professor, Department of Pathology and Molecular Medicine, Queen's University

Director, Molecular Genetics Laboratory, Kingston Health Sciences Centre
